EXPERIENCE/PROFESSIONAL/CONTRIBUTION

I would strive to move Quartzsite forward in such a way that would be beneficial to all residents, businesses, vendors and visitors. Attracting and competing for business's to locate to Quartzsite, and to keep the vendors here longer during the season. I would help ensure that what is decided on is beneficial to the community as a whole.

The Health and Development of Quartzsite is crucial to the well being of every resident and the town's revenue base. There are many services that the local seniors and children need that should be planned, for now, and for the future. If these plans are thought through and researched early on, the costs will be less when the time comes that these services are put into place. The continued development of QZ will ensure the needed services are afforded through the community the local business and civic organizations.

The vendors need board members that will work year round to research and understand what will help make the permit process, fees, employment and their impact on the Town of Quartzsite an easier and less stressful situation for all. There is so much that needs to be done. Waiting until November to make decisions is very troublesome because the dates do not allow enough time for everything to be completely thought through and researched before voting on. Having been a part time vendor way back when, I have several ideas on how the community can benefit from working with the vendors. I would strive to bring back unity between the town and the vendors. I am co owner of Al's Rv Park and understand the needs and costs associated with.

The Planning Board has not held regular meetings in months. This bothers me to no end. There is so much that needs to be planned not only for the immediate future but for the long term future of this town. The growth plan needs to be brought forward at all regular monthly meetings. I have 30 years of construction experience. The area I spent those years in started out just like QZ and now thrives because of great planning and a lot of hard work on the boards end. This requires regular meetings and people who understand growth without sacrificing the integrity of the town and its residents.

I have created a website for vendors and visitors alike to easily get all the forms etc they need to stay and set up shop in QZ. I am still improving the site on a daily basis. Please visit www.quartzsiteshowtimes.com Quartzsite Show Times.com had nearly 25,000 hits in less than 5 months last year!

I feel that if I am allowed to sit on any or all three of these boards that I can contribute to each, to help make QZ an even better place to live, visit and work. I am a very cheerful person who gets along with everyone. I whole heartedly approve of planned growth and will always look out for the best of the community. QZ has to be aggressive with attracting more business and to use available resources to help better our community. If we work as a whole, rather than separate entities, much more can happen in a positive and prosperous way.

I do not believe in sides and have been taught to hear all concerns without prejudice.
